

PNEUMATIC LIFT TABLE

ERGONOMIC SOLUTIONS

Do not lift more... Care your back! Using our ergonomic

- * lift tables
- * Scissors and pneumatics lift tables
- * Not need hydraulic oil or electricity
- * Low maintenance!
- * **5 YEARS WARRANTY**

SOLUTIONS

Ergonomic lift tables maximize worker and machine productivity by positioning work at an ergonomic height. By eliminating lifting, bending or reaching, these lift tables reduce the risk of back and other work-related injuries. This results in greater quality and productivity as well as lower manufacturing costs and maintenance requirements.

CORMAC INDUSTRIAL® offers a complete line of scissor lift tables with optional tilt and rotate platform. The scissors and all elements are designed rough use, constructed of steel plate and precision machined for uniform operation. We have been manufacturing lift tables since 1999. The standard capacities of lift tables range from 1,000 up to 6,000 lbs.

PL4

Self-Contained

Captive air system eliminates the need for constant air hookup or cumbersome mechanical springs

LIFT TABLE

Lift Table Model #	Nominal capacity	Closed (Z ₁)	Extended (Z ₂)	Base size (X ₂ xY ₂)	Platform size (X ₁ x Y ₁)
LE33850A	3000 lbs	10"	34"	38" x 50"	38" x 50"

Cormac Industrial, has been a leading manufacturer and provider of innovative industrial ergonomic lift assist equipment, including air balancers, jib cranes, overhead enclosed monorail systems, pneumatic lift tables, and lift assist systems.

We have been the leader in the development and manufacturing of the best industrial ergonomic equipment in Mexico for more than 34 years. We have designed, manufactured, and installed nearly a thousand lift assist systems over the past 34 years, with nearly 90% of them delivered to the automotive and transportation industries in Mexico. The ergonomic design of our devices makes it easier for the operator to carry out his work with natural movements, eliminating unnecessary efforts, avoiding risks of back and limb injuries.

Our design and manufacturing facilities are located in San Juan del Río Querétaro. We manufacture our own ergonomic aluminum rail systems. We extruded our aluminum rails in Mexico and maintain inventories at Cormac and Blue Giant in Kentucky. Our technology is tried and proven. We cover the entire Mexican territory and North America directly and through value-added distributors. In September 2022 Blue Giant Corporation acquired controlling interest in Cormac Industrial, bringing with it a wealth of resources that will allow us to grow. Together we will be able to expand our offering and footprint to help our national and international customers solve their Ergonomic material handling pains.
